

# ENTREPRENEURIAL STARS OF MCET

VOLUME 1 - 2026

# Leadership Reflections

**Dr. M. Manickam**  
**Chairman**

Our alumni are the true ambassadors of MCET's vision and values. Your accomplishments across industries and communities bring immense pride to our institution. This compilation celebrates not just your success, but also the spirit of excellence that defines MCET. May your journey continue to inspire and uplift those who follow.

It is a matter of great pride to witness our alumni creating meaningful impact across the globe. Your achievements reflect the values nurtured at MCET—excellence, innovation, and integrity. The Global Stars of MCET, a Coffee Table Book, is a celebration of your journey and a source of inspiration for future generations. You remain our strength, and we take pride in being part of your story.

**Shri. M. Hari Hara Sudhan**  
**Correspondent**

**Dr. S. V. Subramanian**  
**Secretary**

I am glad to witness the remarkable accomplishments of our alumni, who continue to reflect the values and spirit of the MCET family. Your journeys exemplify dedication, excellence, and the lasting impact of a strong educational foundation. Global Stars is a celebration of your achievements and a tribute to the enduring bond between MCET and its alumni. Your success stories continue to inspire our students and strengthen the legacy, we proudly uphold.

Our alumni are the brightest reflection of MCET's vision in action. Global Stars is a celebration of your journey—your passion, perseverance, and impact. As you continue to excel, know that MCET takes pride in your achievements. You are, and will always be, a vital part of our story.

**Dr. P. Govindasamy**  
**Principal & Joint Secretary**

**Batch**

**2014**

**Course**

**EEE**

<http://linkedin.com/in/aashiqahamed>

**ALUMNI 20**  
**ENTREPRENEUR 26**

## About the Company

Gofar is a specialized Indian company with expertise in real estate development, engineering, construction, and infrastructure, focused on transparency, efficiency, and innovation.

With 25+ years of experience, Gofar delivers customer-centric, technology-driven solutions backed by strong legal and compliance support.

The company ensures quality, strategic decision-making, and optimal deal outcomes, maintaining reliability and trust with clients, investors, and partners.

## Reflections on MCET

My time at Dr. Mahalingam College of Engineering and Technology laid the foundation for who I am today. What started as learning engineering fundamentals evolved into curiosity for innovation, leadership, and real-world problem solving.

Beyond academics, it shaped my mindset by building resilience, confidence, and the drive to create impact. Looking back, it was where my journey from student to entrepreneur truly began.

## Fuel for Future Engineers

Fuel your curiosity, not just your career. Learn beyond textbooks, build real things, and don't fear failure. Curiosity will lead you to innovation and deeper understanding. Every experiment, whether it succeeds or fails, brings you one step closer to mastery.

## Achievement

Built Gofar Group delivering \$5M projects, secured \$1M contracts, founded UBC network, impacted students, and received multiple entrepreneurship & leadership awards.

# ALUMNI 20 ENTREPRENEUR 26

## About the Company

Mani Maligai Super Market is a well-known, trusted supermarket chain in Pollachi, Tamil Nadu, operating for over 50 years since 1974. Mani Maligai is a fast-growing supermarket brand committed to delivering quality products, trusted service, and a seamless shopping experience to customers. Built with a vision to combine traditional values with modern retail practices, Mani Maligai has established itself as a reliable destination for groceries and daily essentials. Focused on customer satisfaction, efficiency, and growth, the brand reflects strong dedication and entrepreneurial spirit. A trusted retail brand adapting to changing consumer needs.

## Reflections on MCET

My journey at MCET shaped who I am today. It gave me knowledge, discipline, confidence, and leadership skills that built a strong foundation for my entrepreneurial path. I'm grateful for the values and guidance that continue to reflect in my success.

## Fuel for Future Engineers

Stay curious, stay consistent, and never limit your vision to just a job. Engineering is not only about degrees, it is about solving real-world problems and creating value. Take risks, explore opportunities beyond your comfort zone, and build something of your own. Learn continuously, adapt quickly, and surround yourself with people who inspire growth. Most importantly, believe in yourself, because the future belongs to those who are willing to take action today.

## Achievement

Led Mani Maligai growth with 12+ years retail experience; received Best Grocery Chain Award, and serve as Vice President and Entrepreneurs Federation President.

## About the Company

Tellestia is a pure-play enterprise integration services firm that empowers mid-market and enterprise organizations to build secure, scalable, and connected digital ecosystems.

As trusted experts in API-led integration, middleware modernization, IAM, and B2B/EDI connectivity, we help clients unify their applications, data, and user access across complex, hybrid environments.

We help banks, insurers, retailers, telecom providers, and manufacturers create connected ecosystems that deliver faster innovation, greater agility, and seamless customer experiences.

## Reflections on MCET

The supportive faculty members, well-structured curriculum, and practical learning environment have helped me gain confidence and clarity in my field of study. Participation in seminars, workshops, and hands-on sessions has enhanced my knowledge beyond textbooks.

## Fuel for Future Engineers

Apart from technical skills, emphasis is also given to soft skills, teamwork, and leadership, which are essential for a successful engineering career. The supportive and motivating environment encourages students to explore new ideas and turn them into reality. This holistic development prepares students to confidently adapt, innovate, and excel in their professional journeys.

## Achievement

Achieving operational excellence through advanced API-led connectivity and automation. Building agile, resilient, and innovation-driven enterprises for tomorrow.

## About the Company

HASHh Automations, a registered trademark company, is one of the leading providers of smart home automation solutions. We offer a comprehensive range of smart home products, including Smart Switches and Touch Switches for seamless control, Security Systems for enhanced protection, Access Automations such as Gate Automations and Shutter Automations for secure and convenient entry, and Curtain & Blinds Automations for effortless window control. At HASHh Automations, we are committed to delivering easy-to-install, customizable, and future-ready automation solutions that redefine modern living. Switching Reinvented

## Reflections on MCET

MCET also encouraged me to engage in co-curricular and extracurricular activities, which improved my teamwork, leadership, and communication skills. The campus environment is positive and motivating, fostering both innovation and discipline. These experiences have helped shape my overall personality and prepared me to take on real-world challenges with confidence.

## Fuel for Future Engineers

Thus, MCET plays a vital role in shaping students into confident, skilled, and responsible engineers, truly acting as the fuel that powers their future. It nurtures both technical expertise and strong ethical values among students. As a result, graduates are well-prepared to excel in their careers and contribute positively to society.

## Achievement

Recognized for redefining modern living with scalable and future-ready automation systems. Building intelligent ecosystems that enhance comfort, security, and operational efficiency.

**ENTREPRENEUR 26**

## About the Company

TAMA Systems India Private Limited is an Indo-German software and engineering company built to combine German quality expectations with the execution strength of Indian development teams. We support demanding software, automation, and engineering projects with a clear focus on structure, quality, traceability, and long-term collaboration. Our approach ensures reliable, scalable solutions that meet industry standards while maintaining transparency and efficiency throughout the project lifecycle. By fostering strong partnerships and continuous improvement, we help clients achieve sustainable success and operational excellence.

## Reflections on MCET

MCET has been the ground where I have learnt to face the facts and prepare myself for the future. It's where I learnt from the renowned professors what is outside just the semesters and graduating. The path to my current career was made stronger at MCET.

## Fuel for Future Engineers

It's not about how good a graduate you are; it's about how capable and effective an engineer you become. Adaptability and perseverance are essential qualities that one must truly master. Success in engineering comes from continuously learning, evolving with changing technologies, and staying resilient in the face of challenges. By embracing change and maintaining determination, one can overcome obstacles and grow into a skilled and impactful professional.

## Achievement

Tama Systems India has been recognized for its commitment to quality and excellence, with certified processes under ISO 9001:2015 and agile frameworks ensuring consistent quality and on-time delivery across every project.

# MUTHU KUMAR K

S.Malayandipattinam, Pollachi.

Batch

2017

Course

MECH

<https://www.linkedin.com/in/prithivi-raj-coconutexporter/>

# ALUMNI 20 ENTREPRENEUR 26

## About the Company

A global exporter of semi-husked coconuts to over 27 countries, with a strong presence in international agricultural markets. Successfully transformed 1000+ acres of barren land into fertile agricultural fields, founded Ethic Agro Farms, and serves as a trusted consultant to farms across India and abroad.

With a deep commitment to sustainable agriculture, the organization promotes eco-friendly farming practices and efficient resource utilization.

Its expertise and innovation continue to support farmers in improving productivity, profitability, and long-term agricultural growth.

## Reflections on MCET

Good level of freedom is provided, allowing individuals to work independently and manage responsibilities effectively. However, there is a noticeable lack of exposure, as the management team is resistant to new ideas and innovation.

The organization continues to rely on outdated systems and is slow in adopting modern approaches and technologies.

## Fuel for Future Engineers

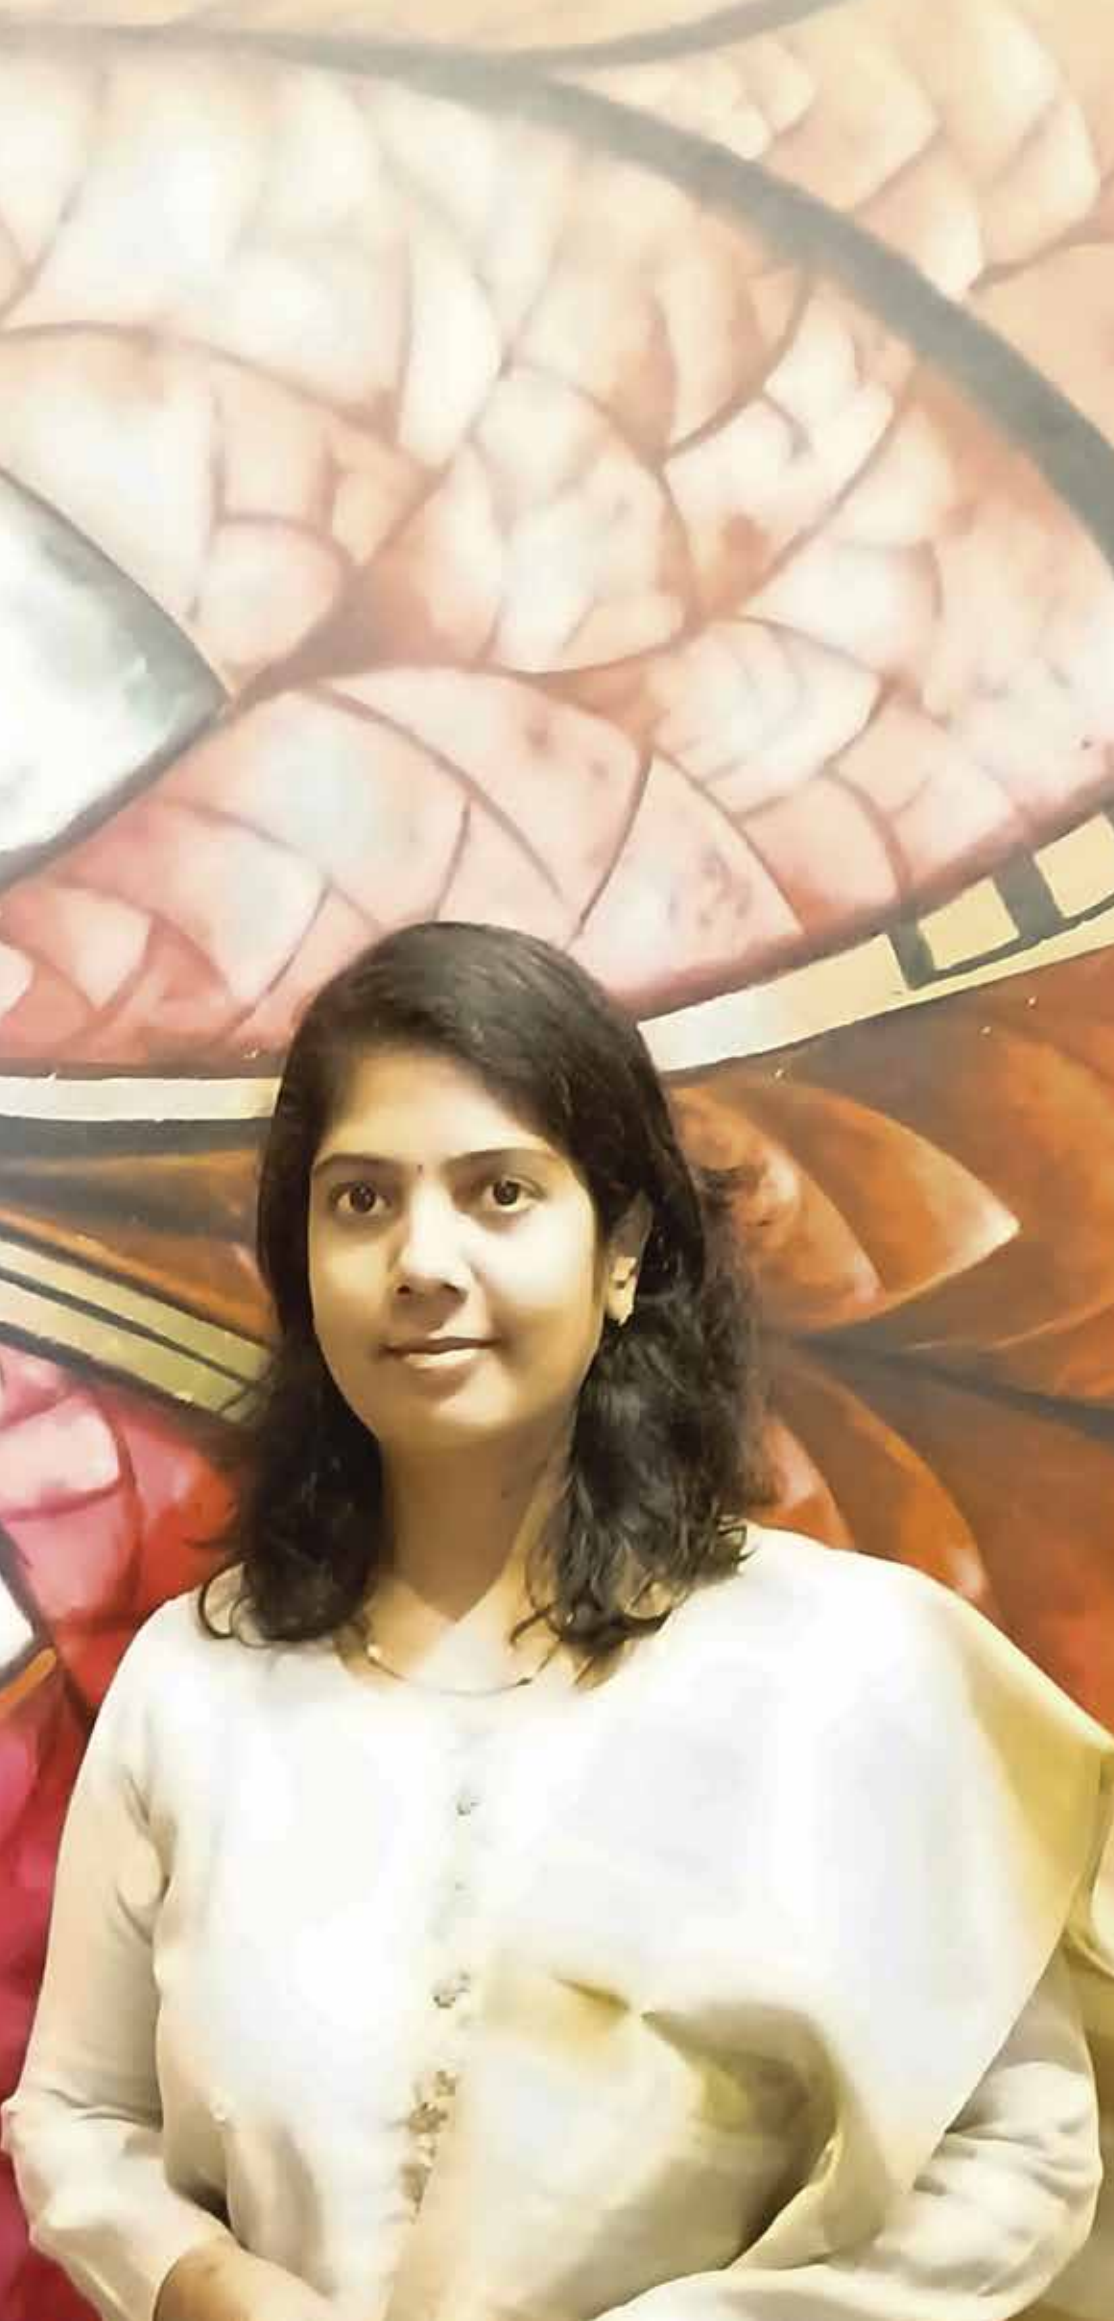

Only good exposure is enough to show the pathway that they will fly their own way. With the right opportunities and guidance, individuals can gain the confidence and direction needed to shape their own successful journey. Continuous learning and real-world experiences further empower them to explore, innovate, and achieve their full potential.

## Achievement

One among top 30 giving business to Kochi port, Have been nominated as startup state committee member, CII, mentored more than 30,000 students on startups all over India in colleges and universities

## About the Company

Adroit Technologies - Founded in 2000 in Coimbatore, Tamil Nadu, Adroit Technologies began with a mission to transform education through innovation. From humble beginnings, we have grown into a trusted IT training partner for global technology leaders. Over the years, we have built strong capabilities in both technical training and academic collaboration, offering customized learning solutions that enhance employability and industry readiness. We have successfully trained over 10,00,000 individuals, including aspiring students and working professionals from various sectors.

## Reflections on MCET

My journey at Dr. Mahalingam College of Engineering and Technology has been a meaningful and enriching experience. The institution has provided me with a strong academic foundation along with numerous opportunities to develop my technical and personal skills. It has also instilled confidence, discipline, and a lifelong passion for continuous learning and growth.

## Fuel for Future Engineers

Engineering is not just about knowledge; it is about innovation, creativity, and problem-solving. Institutions like MCET act as a true fuel station for future engineers by providing the right mix of academic excellence, practical exposure, and industry-oriented learning.

## Achievement

We are in the industry for fifteen years and have pioneered so many successful initiatives on software development and Training services.

We have been awarded the best partners consecutively by IBM & Oracle.

## About the Company

AgnoShin is a technology-agnostic IT services and consulting company founded in 2018 that specializes in customer experience management (CXM) and digital transformation solutions for global enterprises. The company provides platform-independent services such as customer experience consulting, cloud solutions, big data analytics, and AI-driven automation to help businesses improve efficiency, engagement, and revenue growth. With a focus on scalable, future-ready technologies, AgnoShin builds adaptable CX ecosystems that help organizations modernize operations and enhance customer interactions.

## Reflections on MCET

My Electronics and Communication Engineering journey built a strong foundation in core concepts and system design. I developed skills in programming and data handling. Practical experience with tools and projects enhanced my problem-solving abilities and helped me integrate hardware and software to create efficient solutions.

## Fuel for Future Engineers

An engineer's journey begins with curiosity and grows through continuous learning and innovation. Strong fundamentals and interdisciplinary knowledge are essential. Practical experience builds problem-solving skills and bridges theory with application. Staying updated, collaborating effectively, and maintaining ethics ensure long-term success.

## Achievement

AgnoShin recognized as Best Customer Experience Management Provider, delivering innovative solutions that enhance customer satisfaction and improve overall operational efficiency.

## About the Company

GoGreen Coir Private Limited is an innovative and environmentally conscious company engaged in the manufacturing of coir door mats and a diverse range of coir products. With a commitment to sustainability, we use natural coconut fiber to create durable, aesthetic, and eco-friendly products suitable for residential, commercial, and industrial applications. Our focus on quality craftsmanship, advanced production techniques, and customer satisfaction has made us a reliable supplier in both the Indian and global coir markets. By consistently delivering durable, eco-friendly products and maintaining strict quality standards, we have built lasting trust with clients worldwide.

## Reflections on MCET

Studying at Dr. Mahalingam College of Engineering and Technology has been a fulfilling and inspiring experience. The college has equipped me with a strong academic background and various opportunities to sharpen my technical and personal skills.

## Fuel for Future Engineers

Engineering is more than just academics; it is about innovation, creativity, and solving real-world problems. Institutions like Dr. Mahalingam College of Engineering and Technology serve as a driving force for future engineers by blending academic excellence with practical and industry-focused learning. Overall, MCET acts as a catalyst in shaping confident, skilled, and responsible engineers, fueling their journey toward a successful future.

## Achievement

GOGreen Coir Private Limited's success is built on its commitment to quality and timely delivery, earning the trust of foreign customers through consistent excellence in exports.

## About the Company

Sarvaa Sweets and Cakes in Erode is a popular bakery and sweet shop chain with branches in Surampatti, Periyar Nagar, Pallipalayam, and Anthiyur, known for its diverse range of traditional sweets, savoury items, and fresh cream cakes. Renowned for its quality and taste, the brand offers a wide variety of mini snacks that cater to everyday cravings and special occasions alike. Each product is crafted with care using fresh ingredients, ensuring consistency, flavor, and customer satisfaction. With a strong local presence and growing popularity, Sarvaa continues to be a go-to destination for delicious treats and memorable celebrations.

## Reflections on MCET

Overall, my time at MCET has played a significant role in shaping my career goals and personal growth. I am grateful for the experiences, guidance, and memories gained during my journey at the institution.

## Fuel for Future Engineers

Through well-equipped laboratories, skilled faculty, and hands-on training sessions, students gain the technical strength required to face real-world challenges. Workshops, internships, and technical events further enhance their ability to think critically and work efficiently. This holistic approach ensures students are industry-ready and confident in applying their knowledge to practical situations.

## Achievement

From a humble beginning with one branch, the organisation has expanded to 21 branches, with a workforce of over 100 full-time employees, serving the districts of Erode, Tirupur, & Namakkal in Tamil Nadu.

## About the Company

VPK Solutions is a leading data and digital intelligence company serving clients across North America, the UK, the Middle East, and regional markets. The company focuses on transforming raw data into meaningful insights, helping businesses make informed decisions and drive global growth.

At the core of its operations is a unique “Human + AI” approach, which blends human expertise with advanced artificial intelligence and machine learning technologies. This combination ensures high accuracy, speed, and deep insights, delivering effective and reliable solutions for every project.

## Reflections on MCET

My journey at Dr. Mahalingam College of Engineering and Technology (MCET) provided a strong academic foundation and opportunities to develop technical and personal skills. Supportive faculty, practical learning, and co-curricular activities helped build my confidence, teamwork, and leadership, shaping my career and growth.

## Fuel for Future Engineers

Engineering focuses on innovation, creativity, and problem-solving, and MCET supports this through strong academics and practical learning. With hands-on training, workshops, and internships, students build technical and critical thinking skills. A focus on teamwork and leadership helps shape confident and responsible engineers.

## Achievement

VPK Solutions excels in data research with advanced analytics and machine learning, enabling faster insights, accuracy, & smarter decisions.
